Ha Nam, March 31st, 2025

Regarding: *Explanation of After-Tax Profit
on Separate and Consolidated Audited
Financial Statements for 2024 changing by
10% compared to 2023*

**To: - STATE SECURITIES COMMISSION
- HO CHI MINH CITY STOCK EXCHANGE**

Based on the data from the audited financial statements of individual and consolidated business operations for 2024 conducted by Ernst & Young Vietnam LLC for the accounting period ending on December 31, 2024.

Implementing Circular No. 96/2020/TT-BTC dated November 16, 2020, guiding the public disclosure of information on the securities market. FECON Mining Joint Stock Company (**Stock code: FCM**) would like to explain the business results for 2024 compared to 2023 as follows:

Explanation for the decrease in after-tax profit in 2024 compared to 2023:

INDICATOR	Year 2024 (VND)	Year 2023 (VND)	Value Difference (VND)	Difference (%)
Separate financial statements				
Net revenue	424,237,372,732	347,284,755,713	76,952,617,019	22%
After-tax profit	222,401,985	18,592,544,508	(18,370,142,523)	-99%
Consolidated financial statements				
Net revenue	469,074,237,334	458,971,576,519	10,102,660,815	2%
After-tax profit	1,005,253,302	15,652,456,601	(14,647,203,299)	-94%

After-tax profit of the parent company on the separate financial statements for 2024 decreased by 99%, corresponding to a decrease of 18.7 billion VND, and after-tax profit on the consolidated financial statements for 2024 decreased by 94%, corresponding to a decrease of more than 14.6 billion VND compared to the previous year. The main reason is due to:

+ Net revenue from sales and service provision in 2024 on the parent company's financial report increased by 22%, corresponding to nearly 76.9 billion VND compared to 2023, due to positive market changes in 2024, the real estate market recovering from a difficult period, and an increased demand for concrete piles for the foundations of construction projects, leading to stable consumption of concrete piles produced by the company. However, net revenue in 2024 on the consolidated financial report only increased by 2%, corresponding to an increase of over 10 billion VND compared to 2023, as in 2024 the company only had one subsidiary, Thai Ha Concrete Joint Stock Company. On October 3, 2019, FECON Mining Joint Stock Company completed the purchase of 4,758,000 shares, accounting for 99.96% of the charter capital of Thai Ha Concrete Joint Stock Company. Currently, Thai Ha Concrete Joint Stock Company is in the process of basic construction, implementing land compensation for the construction of the factory.

+ Although revenue in 2024 increased compared to 2023, it did not lead to an increase in after-tax profit. The main reason is the divestment from the subsidiary, FECON Nghi Son Joint Stock Company, which incurred a loss of 19.6 billion VND, resulting in the company recognizing a financial expense of 19.6 billion VND (on the parent company's financial report) and 17.7 billion VND (on the consolidated financial report). The company completed the divestment from FECON Nghi Son Joint Stock Company

on June 29, 2024. Since June 29, 2024, the ownership percentage of FECON Mining Joint Stock Company in FECON Nghi Son Joint Stock Company is 0%.

Through this document, FECON Mining Joint Stock Company would like to explain to the State Securities Commission, Ho Chi Minh City Stock Exchange, esteemed shareholders, and investors.

Thank you very much!
